CSA Call

**Letter of support for FIN-TECH: A FINancial TECHnology training platform**

Dear Sir/Madam,

We have been approached by researchers from the University of Warsaw (led by dr Piotr Wójcik), who are submitting, together with other 24 European research centers and FinTech partners, a project proposal on “FIN-TECH: A FINancial TECHnology training platform” in response to the Coordinated and Support Action Call Horizon 2020 ICT-35-2018 from your organisation.

We understand that the research team is proposing us to develop a state-of-the-art innovative and research based education programme in the areas of Artificial Intelligence, Blockchain, Cryptocurrencies, Cybersecurity, Financial Data Science, Marketplace lending, RegTech and/or Robot Advisory, that our staff and staff from FinTech companies invited by us could use free of charge. This education programme that will be developed on demand and delivered on-site by our respective network of partner, funded by the Call.

We highly endorse such knowledge transfer from established academic centers of excellence to start-up FinTech companies and public service bodies like us, and are pleased to confirm that the KNF is interested in participating in and benefiting from the proposed educational programme.

We expect this educational programme to broaden our knowledge and result in enhanced ability to serve the public and comment you for your call for research on this subject matter. We hereby confirm that we are ready to dedicate the necessary time in the proposed education programme, and also participate in the project related workshops when possible.

Yours sincerely,

Endorser
